

Job Title: Computer Lab Technician

LAN-TEL is seeking a Computer Lab Technician to work within our Security Systems and IT Infrastructure practices. The ideal candidate will work directly with project managers and field personal to stage and pre-install highly customized Security Systems and IT infrastructure solutions.

LAN-TEL Communications provides solutions to our customers that are designed and engineered to run smoothly, safely, and uninterrupted. LAN-TEL's advanced structured cabling solutions, innovative security systems, and IT infrastructure services provide an end-to-end seamless solution to our customers.

The position will require travel to our offices in Norwood, MA and our customers throughout the Boston and Metro-West areas.

Responsibilities and Duties

- Maintain Lab systems and Lab Area
- Account for all Inventory being received for the lab based on sold packages
- Work with Implementation Engineers and Project managers to ensure on-time delivery of hardware
- Support Field Personal
- Build repeatable install standards and documentation
- Maintain Quality Control of Staged Equipment
- Support in-house IT requests

Qualifications and Skills

- College Degree preferred, but not required
- Experience in Information Systems a plus
- Industry Certifications a plus
- General knowledge of Network Infrastructure
- Excellent Communication and Documentation Skills
- Understanding of Security Access Control Systems and Video Surveillance Systems a plus
- Ability to fill multiple roles simultaneously

Pay and Benefits:

In addition to a competitive base salary, LAN-TEL offers an extremely generous compensation package that includes the following:

- Medical, Dental and Vision Insurance
- Short and Long-Term Disability Plans
- Life Insurance
- 401K Plan with Company Matching
- Profit Sharing
- Paid Vacation and Holidays
-

Please send resume to:

Mike French, Director of Information Technology
