

## **Job Title: Security Systems and IT Infrastructure Implementation Engineer**

LAN-TEL is seeking an Implementation Engineer to work within our Security Systems and IT Infrastructure practices. The ideal candidate will work directly with customers to provide configuration, implementation and support of our highly customized Security Systems and IT infrastructure solutions.

LAN-TEL Communications provides solutions to our customers that are designed and engineered to run smoothly, safely, and uninterrupted. LAN-TEL's advanced structured cabling solutions, innovative security systems, and IT infrastructure services provide an end-to-end seamless solution to our customers.

The position will require travel to our offices in Norwood, MA and our customers throughout the Boston and Metro-West areas.

### **Responsibilities and Duties**

- Work with Sales, Estimators, Project Managers and Field Technicians to implement custom solutions to our customers based on the sold package
- Document and create repeatable solutions to be installed in the field
- Assist with Lab Staging and creating Best Practices for Lab and Field Personal
- Act as a Pre-Sales resource for potential or current opportunities to further enhance solutions being offered and the benefits of the technology
- Ensure projects are delivered on-time and built to the project specification
- Provide training to customers for the installed technologies
- Achieve Industry and Software Specific Certifications

### **Qualifications and Skills**

- Associates Degree in Information Systems, Computer Science or related work experience
- Industry Certifications a plus
- Knowledge of Network Infrastructure
- Excellent Communication Skills and the ability to communicate to all levels of an organization
- Knowledge of Security Access Control and Security Video Surveillance Systems a plus
- Train customers on the installed Solutions
- Documentation Skills of As Built Systems
- Work as a Pre-Sales resource for current and potential opportunities

**Pay and Benefits:**

In addition to a competitive base salary, LAN-TEL offers an extremely generous compensation package that includes the following:

- Medical, Dental and Vision Insurance
- Short and Long-Term Disability Plans
- Life Insurance
- 401K Plan with Company Matching
- Profit Sharing
- Paid Vacation and Holidays

**Please send resume to:**

Mike French, Director of Information Technology
