

Innovative Security Solutions for Safer Healthcare Facilities

THE CHALLENGE:

Keep patients, staff, and visitors safe while providing a secure and healing environment.

THE SOLUTIONS:

Prevent a crisis from occurring and protect everyone in the buildings if such incidents were to transpire by employing best-in-class security solutions that enable healthcare facilities to secure all buildings, monitor for threats, and alert emergency personnel in real-time.

SECURE

Maintain secure buildings and facilities with cutting-edge access control systems to prevent unauthorized personnel from entering buildings, offices, patients' rooms, floors, and any other enclosed areas.

TOP SOLUTIONS

- Personal identification
- Visitor management systems
- Gate Control

MONITOR

Monitor activity using state-of-the-art CCTV systems, which allow safety personnel to identify and track potential threats as they happen. Video analytic solutions can then be used for in-depth analysis of the footage to prevent similar events from occurring.

TOP SOLUTIONS

- IP/Analog camera solutions
- Video management system solutions
- Video analytics

ALERT

Mass notification and emergency communication tools enable security officials to notify everyone on the premises of an incident through digital devices and intercoms while immediately alerting emergency personnel. HUGS systems can also offer additional security support for infants and elderly patients.

TOP SOLUTIONS

- Panic alarms
- Internal communication
- Two-way communication between law enforcement and site emergency
- Gunshot detection
