

Innovative Security Solutions for Medical Marijuana Growth Facilities and Dispensaries

THE CHALLENGE:

Keep staff safe while providing a secure and productive environment and complying with all license requirements.

THE SOLUTIONS:

Prevent a crisis from occurring and protect everyone on the premises if such incidents were to transpire by employing best-in-class security solutions that enable growth facilities and dispensaries to secure all buildings, monitor for threats, and alert emergency personnel in real-time.

SECURE

Maintain secure buildings and facilities with cutting-edge access control systems to prevent unauthorized personnel from entering buildings, offices, floors, and any other enclosed areas.

MONITOR

Monitor activity on campus using state-of-the-art CCTV systems, which allow safety personnel to identify and track potential threats as they happen. Video analytic solutions can then be used for in-depth analysis of the footage to prevent similar events from occurring.

ALERT

Mass notification and emergency communication tools enable security to notify everyone on the premises of an incident through digital devices and intercoms while immediately alerting emergency personnel. Gunshot detection systems can also offer additional support for immediate response.

TOP SOLUTIONS

- Personal identification
- Visitor management systems
- Door access
- Biometrics/facial recognition
- Gate control

TOP SOLUTIONS

- IP/Analog camera solutions
- Video management system solutions
- Wireless transmission solutions
- Video analytics

TOP SOLUTIONS

- Panic alarms
- Internal communication
- Two-way communication between law enforcement and site emergency
- Offsite system control
- Gunshot detection
